2. Through this Notification, the Secretariat would also like to inform all Parties that this will be the last distribution of paper copies of Parties' original CITES permits and certificates.
3. In order to facilitate the work of CITES authorities in the verification of CITES documents, the Secretariat has decided to place all CITES permits/certificates currently used by the Parties that it has on its records onto the forum section of the CITES website. The forum section is a secure area on the CITES website where only approved users can log in with their username and password. A link to the CITES sample permits/certificates will be provided from the forums for the CITES Management Authorities and Enforcement Authorities. Parties that have not yet subscribed to this service are encouraged to do so as soon as possible by following the instructions provided on the website.
4. Over the coming weeks, all current permits/certificates will be uploaded onto the website. For this tool to be as effective as possible, the Secretariat requests that Parties check the forum section of the website to verify that the sample forms displayed there are current. Parties are also requested to inform the Secretariat of any changes or additions in the forms used, in order to minimize the possibility that permits are rejected.
