(Rev. CoP15)*

Establishment of committees

RECALLING Resolution Conf. 9.1 (Rev.), adopted by the Conference of the Parties at its ninth meeting (Fort Lauderdale, 1994) and amended at its 10th meeting (Harare, 1997), relating to the establishment of committees;

RECOGNIZING that Rules of Procedure common to all committees are an essential requirement for formal meetings;

THE CONFERENCE OF THE PARTIES TO THE CONVENTION

Regarding the establishment of committees

AGREES to formalize a system for the appointment of committees of the Conference of the Parties and to establish procedures to be followed when committees are created;

RESOLVES that:

- a) there shall be a permanent Standing Committee of the Conference of the Parties, which shall be the senior Committee, and shall report to the Conference of the Parties;
- b) there shall be an Animals Committee and a Plants Committee, which shall report to the Conference of the Parties at its meetings and, if so requested, to the Standing Committee between meetings of the Conference of the Parties;
- c) the Conference of the Parties may appoint additional committees as the need arises;
- d) the Conference of the Parties or the Standing Committee may appoint working groups with specific terms of reference as required to address specific problems. These working groups shall have a defined life span which shall not exceed the period until the next meeting of the Conference of the Parties, at which time it may be renewed if necessary. They shall report to the Conference of the Parties and, if so requested, to the Standing Committee;
- e) the Standing Committee shall adopt its own Rules of Procedure;
- f) the Animals and Plants Committees shall adopt their own Rules of Procedure, which shall, however, be in accordance with the Rules of Procedure of the Standing Committee as far as is practicable;
- g) regional representatives shall be elected by the Conference of the Parties as members of the Standing Committee;
- h) to the extent possible, the Secretariat shall make provision for the payment, if requested, of reasonable and justifiable travel expenses of members, including attendance at the relevant committee meetings, and other expenses of the Chairs of the Standing Committee, the Animals Committee and the Plants Committee, for representatives from developing countries, countries with economies in transition and small island developing states;
- i) all committees established by the Conference of the Parties shall be listed in annexes to this Resolution;
- j) the Secretariat shall, upon request by a committee chair, provide secretarial services when such services can be met within the approved budget of the Secretariat;
- k) when back-to-back meetings of the Animals and Plants Committees include a joint session, the duration of the separate committee meetings should be four days, but that when not back-to-back, the length of each meeting should be five days; and
- l) the Secretariat shall ensure that any vacancies in the Animals and Plants Committees are brought immediately to the attention of the Standing Committee, in order to fill the vacancies as soon as possible;

* Amended at the 12th, 13th, 14th and 15th meetings of the Conference of the Parties.

Regarding regional representation in the Standing Committee

RECOMMENDS that the following guidelines be implemented:

- a) Selection of regional members and alternate regional members
 - i) In the selection of regional members and alternate regional members, the following considerations should be taken into account:
 - A. for regions with one member and one alternate member, a rotation in the selection is recommended; and
 - B. for regions with more than one member and one alternate member, the selection should try to achieve a balanced representation (geopolitical, cultural, ecological);
 - ii) The regional candidatures should be officially submitted by the interested Parties through a governmental channel, at least 120 days before a meeting of the Conference of the Parties. These candidatures should be communicated to all the Parties of the region through the Secretariat;
 - iii) If more candidatures are submitted than there are positions available for any region, a vote should take place in a session of the Parties of that region to be held during the meeting of the Conference of the Parties. To be elected, a candidate should obtain an absolute majority (i.e. more than half the votes). Only the delegations duly accredited by the Conference should have the right to vote. The election should take place during the second week of the meeting; and
 - iv) The election of a member and of the alternate should take place at the end of the term of office of their predecessors, in accordance with the above-mentioned procedure, through successive votes during a single process; and
- b) Timing of replacement of members and alternate members
 - i) The terms of office of the regional members and their alternates shall commence at the close of the regular meeting at which they are elected and shall expire at the close of the second regular meeting thereafter;
 - ii) For regions with one member and one alternate member, the selection should occur at every second meeting; and
 - iii) For regions with more than one member and one alternate member, to guarantee some continuity, not all members and alternate members should be changed at the same meeting;

Regarding regional sessions at meetings of the Conference of the Parties

AGREES that:

- a) the regional sessions have an official character and should have an agenda. Proceedings should be prepared concerning the proposals and agreements dealt with;
- b) the Chair of each regional session should be the representative of a regional member of the Standing Committee; and
- c) each region has specific tasks to fulfil, as follows:
 - i) selection, if appropriate, of members and alternate members of the Standing Committee, which are Parties;
 - ii) selection of the members and alternate members of the Animals and Plants Committees. In accordance with Annex 2 of this Resolution the members and alternate members of the Animals and Plants Committees are persons. The persons to be chosen should be experts in animals or plants in general and with regard to the region they are representing in particular;
 - iii) the regions with more than one member should decide the way the representation should be exercised until the next meeting of the Conference. This should be reviewed at each meeting; and

- iv) other tasks depending to a large extent on the agenda of the meeting of the Conference of the Parties. The regional representatives, perhaps with the help of their alternates, should establish the agenda of the session before the session. This agenda should cover the points mentioned in subparagraphs i) and ii) and provide for discussion of the main items of the agenda of the meeting to be considered by the Conference of the Parties, at plenary sessions or at sessions of Committees I and II, in particular those of special interest to the region concerned; and

Regarding representation in the Animals and Plants Committees

RECOMMENDS that the following guidelines be implemented:

a) Election of the candidates

- i) Parties proposing candidates as representatives should confirm, at the time of nomination, that the candidate will be supported and that they will obtain the necessary means to undertake their activities;
- ii) The names of the proposed candidates, and their *curricula vitae*, should be circulated to the Parties of the region concerned at least 120 days before the meeting of the Conference of the Parties at which the representatives will be elected. Although not regional representatives the same process should apply to candidates seeking election as specialists on botanical and zoological nomenclature;
- iii) Ideally the candidates should be associated with a Scientific Authority, have adequate knowledge of CITES and receive sufficient institutional support to carry out their duties. This information should also be included in the *curricula vitae*; and
- iv) As long as the representatives are persons, a Party shall not be accepted as a proposed candidate subject to a later identification of the person concerned by the Party; and

b) Timing of replacement of regional members and alternate members

- i) The procedure should be the same as that described above for the Standing Committee;
- ii) As alternate members are alternates of specified members, they should be elected at the same time as the members;
- iii) If a region wishes to re-elect a member or alternate member, there is nothing to prevent it from doing so; and
- iv) in the event that no nominations be received before the deadline the incumbent shall remain, if so willing and able, as an representative until a replacement is elected;

Regarding regional communication and representation

RESOLVES that the Secretariat shall:

- a) publish on the CITES website forthcoming deadlines relevant to the work of the Animals and Plants Committees;
- b) explore funding options to ensure that the regional representatives and the nomenclature specialists of the Animals and Plants Committees from developing countries and countries with economies in transition can attend the meetings of the Conference of the Parties and fully participate in the committees' work; and
- c) seek funding to support the holding of regional meetings in association with regional seminars or other related meetings organized by the Secretariat. The regional representatives should prepare the agenda and chair the meeting; and

Annex 2 Establishment of the Animals and Plants Committees of the Conference of the Parties

REALIZING the many problems faced by the Conference of the Parties and individual Parties concerning the lack of biological data and expert knowledge of animal and plant trade and management;

RECOGNIZING that an effective method of evaluating whether a species is appropriately listed in the CITES Appendices requires a periodic review of its biological and trade status;

RECOGNIZING the need to identify those Appendix-II species that are subject to levels of significant international trade and for which scientific information on the capacity of the species to withstand such levels of trade is insufficient to satisfy the requirements of Article IV, paragraph 3, of the Convention;

RECOGNIZING that the bulk of the world's biodiversity occurs in Africa, Asia, and Central and South America, and also that the majority of animal and plant species listed in the Appendices of the Convention are from these regions;

AWARE that there are only three Parties in the North American region, but more than 40 in Africa, more than 25 in South and Central America and the Caribbean, and more than 20 in Asia, which, in addition, stretches from Israel in the west to Japan in the east;

RECOGNIZING that the nomenclature used in the Appendices to the Convention will be most useful to the Parties if standardized;

RECALLING that Recommendation Conf. S.S. 1.7, adopted at the special working session of the Conference of the Parties (Geneva, 1977), recognized the need for the standardization of the nomenclature used in the Appendices;

NOTING that such biological nomenclature is not static;
