NDF formulation of *Aquilaria* spp.

- Agarwood from protected area are regulated by national law.
- Thailand is not issued the permit for wild taken Agarwood.
- No conduct NDF for Agarwood.
- No guidelines or practice are used right now.
- Agarwood is prohibited to collect from protected area but in the private land or private plantations are allowed.
- Thailand never setting up quota for exporting and natural collection of Agarwood

Agarwood Plantation Management

Agarwood in the wild:
 Protected Area
 Prohibited to harvesting & collected by national laws.

Agarwood Plantation Management

- In several part of Thailand has large areas of Agarwood plantation
- There is no data of cultivated area and the total of Agarwood trees
- 2 type of plantations ; mono specific plantation and mix plantation
- Registration system we have done only nurseries for produce Agarwood seedlings
- Thailand needs more data in plantations to setting up registration system for plantations

- Agarwood from private land are allowed to collect

Agarwood in private land
