

### Annex 1. CITES Reporting Requirements, and draft recommendations on whether they should be maintained or deleted.

Row Key is the number of the reporting requirement in the spreadsheet developed by the Working Group on Special Reporting Requirements (WG SRR), and is included to allow cross reference with the spreadsheet, which is the master version of this information. If any reader wishes to have access to the actual spreadsheet they are recommended to contact the Chair of the Working Group via the Secretariat.

SC = Standing Committee, AC = Animals Committee, PC = Plants Committee. A '1' in any of these columns indicates that the relevant committee should review the requirement and provide comment in the last column of the table on whether it is (a) still current and valid or (b) outdated or otherwise unnecessary, and therefore no longer required (see paragraph 16 of this document). For those rows reviewed by the Animals and Plants Committees the phrase 'Agreed AC/PC advice' is used in the last column, otherwise the draft recommendation is from the WG SRR.
