ANNEX 1. Text of the National Legislation of the CITES implementation in Uzbekistan.

In 2004 were prepared the Resolution of the Cabinet of Ministers of the Republic of Uzbekistan from 28/10/2004 No.508 "On strengthening the control over rational use of biological resources, their imports and exports outside the Republic of Uzbekistan". We present the extract on the question of implementation the Convention clauses into Nature protection legislation of the Republic of Uzbekistan (Article VII):

VII. Order and procedure of issuing permits for importing and/or exporting of CITES species

41. Permits for transporting in as well as out of Uzbekistan of the species listed in Annex I, II, or III of the Convention on International Trade of Endangered Species (CITES) are issued to legal and physical entities by the Management Authority of CITES in Uzbekistan. The Management Authority of CITES in Uzbekistan is the State inspection on guards and rational use of Animal and Vegetative world of the State Committee on Nature Protection of the Republic of Uzbekistan (GosBioControl – "DAVBIONAZORAT"). The Management Authority acts in accordance with the requirements of CITES.

42. The Scientific Authority of CITES in Uzbekistan is the Institute of Zoology and the Institute of Botany of the Academy of Sciences of the Republic of Uzbekistan. Its functions include:

providing consultations to the Management Authority on issues pertaining to transporting in and out of the republic of the species listed in Annex I, II, or III of CITES;

conclusions as to the importing/exporting of sample animal and plant species;

conclusions as to the readiness of a state to receive sample animal and plant species;

conclusions as to the conditions of keeping animals;

conclusions as to the registration of collections and nurseries.

43. In order to obtain a permission from CITES to transport in or out of the republic (export, re-export, import) any of the species listed in Annex I, II, or III of CITES, it is necessary to submit an application to the Scientific and Administrative bodies of CITES, containing the following information:

the purpose of export, re-export, import (such as commercial operations, scientific research, exchange between zoological parks and museums, hunting trophies, gifts, etc.);

the name of the transported species, with full Russian and Latin names;

the description of the sample (such as live animals, hides, stuffed animals, bodies, bones, horns, fangs, blood, eggs, as well as objects made of any of the above, etc.; for live animals it is necessary to indicate their sex and age and presence of identifying marks);

the quantity or weight of samples;

the origin of the sample (whether it is from wild nature, bred or grown in artificial conditions, imported from another country (indicate documentary basis), confiscated, purchased, received as a gift, inherited, etc.);

the time frames and the customs checkpoint of entry/exit of the sample, means of transportation, the itinerary;

for live animals – a confirmation of compliance of the transportation to the relevant rules of CITES and, in case of air transport, of IATA, for transporting live animals;

the conclusion of the Scientific Authority of CITES in Uzbekistan;

the legal addresses (for physical persons – home addresses and passport data) of the exporter (re-exporter) and importer in Russian and English, their contact phones and fax numbers.

44. The following documents can count as evidence of legality of obtaining, acquiring, handling, or owning a sample:

a letter of entitlement to handle or use the sample;

a copy of a permit for obtaining animal objects;

a copy of a permit for obtaining biological resources of water sources;

an excerpt from the herd-book containing the place and date of birth, livestock numbers and nicknames, pedigree information of at least two generations or more, if needed;

a sales receipt, if the sample had been purchased in the trading network;

primary legal documents confirming the right of ownership and/or sales contract, will, or gift certificate;

a resolution of relevant authorities on confiscation of the sample and/or confiscation certificate by the Management Authority of CITES in Uzbekistan;

an excerpt from the inventory books of museums and other collecting organizations;

the original of permission by the Management Authority of CITES of the home country of the exporter or, in case the exporting country is not a CITES party, by a relevant state authority.

45. In exceptional cases dictated by the necessity of adhering to the stipulations of the Convention and conservation of animals, the Management Authority of CITES in Uzbekistan can request additional information related to the transport of the species or samples in and out of the country.

46. The Management Authority of CITES in Uzbekistan reviews the application and attached documentation, consulting the Secretary of CITES in cases stipulated by CITES, and issues a permit or a substantiated denial within 30 days.

The permit is valid for a period of 6 months since the date of issue, unless the permit is issued for mobile exhibitions or circuses, in which case it is issued for 12 months.

A standard fee is collected for the issuing of permits.

47. Each permit is issued on a standard form in two copies, with the first copy bearing protective marking, is signed by an empowered officer, and sealed by the seal of the Management Authority of CITES. Each sample shipment is issued a separate permit.

48. Completed permits are either issued to the applicant in person, with the applicant's signature entered in the permit issuance register, or mailed to the applicant upon confirmation of payment of fees.

49. The transporting of samples is effected in agreement with the specified time frame and through the customs checkpoint named in the permit.

The original of the permit with protective markings accompanies the sample.

The original of the CITES permit for the transported samples is submitted to the Management Authority of CITES and kept on file.

50. If for any reason the permit is not used within the indicated period of time, it is to be unconditionally returned to the Management Authority of CITES.

At the present time are developing the separate regulations on the implementation of the CITES Convention based on the documents which sent from the CITES Secretariat. Unfortunately, the process of taking new normative documents is rather long, as it takes much coordination with different organizations and departments.
