D8 Areas for future work

1	Are any of the following activities needed to enhance effectiveness of CITES implementation at the national level and what is the respective level of priority?			
	Activity	High	Medium	Low
	Increased budget for activities	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
	Hiring of more staff	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Development of implementation tools	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Improvement of national networks	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Purchase of new technical equipment for monitoring and enforcement	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Computerization	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other (specify):	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
2	Were any difficulties encountered in implementing specific Resolutions or Decisions adopted by the Conference of the Parties?	Yes	<input checked="" type="checkbox"/>	
		No	<input type="checkbox"/>	
		No information	<input type="checkbox"/>	
3	If Yes, which one(s) and what is the main difficulty? Difficulties encountered when not all Parties implement Resolutions eg. personal/household exemptions and challenges in species identification eg. timber. It is also a challenge to trace and identify shark products (eg. fins, meat) that are landed/imported as such shipments are usually large and may contain mixed species/products.			
4	Have any constraints to implementation of the Convention arisen in your country requiring attention or assistance?	Yes	<input checked="" type="checkbox"/>	
		No	<input type="checkbox"/>	
		No information	<input type="checkbox"/>	
5	If Yes, please describe the constraint and the type of attention or assistance that is required. Monitoring and tracking of movements and conversions of CITES specimens have been tedious and complex eg. keeping track of the number of different manufactured products (eg. handbags, wallets, watch straps, etc) produced from a certain number of skins and maintaining the stock balance of the skins. There should be an improved system of monitoring the movements of CITES specimens to ensure legality of the specimens entering international trade. The e-permitting working group should consider a system that can track and manage stocks balance. There is also a lack of simple, cheap and fast species identification kits/tools that can be readily used for identification of specimens.			
6	Have any measures, procedures or mechanisms been identified within the Convention that would benefit from review and/or simplification?	Yes	<input type="checkbox"/>	
		No	<input checked="" type="checkbox"/>	
		No information	<input type="checkbox"/>	
7	If Yes, please give a brief description.			
8	Please provide details of any additional measures taken: Nil.
